

Structure Plane

Information architecture

The website will feature four pages with a header and footer but the focus being on being absolute simplicity and ease of use.

Interaction Design (IXD)

- The site will feature a main landing page which lists all of the current live calls and who basic customer information.
- The colour scheme will be red and grey in line with the company brand and logo.
- The new task add page will be a series of dropdowns and form boxes to facilitate the collection of key information and details.
